Q4 & FY 2022 Earnings

February 22, 2023

Safe Harbor

This presentation contains "forward-looking statements" within the meaning of the federal securities laws, including Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These forward-looking statements are based on information available to the Company as of the date hereof, as well as the Company's current expectations, assumptions, estimates and projections that involve risks and uncertainties. In this context, forward-looking statements often address expected future business, financial performance and financial condition, and often contain words such as "expect," "anticipate," "intend," "plan," "believe," "could," "seek," "see," "will," "may," "would," "might," "potentially," "estimate," "continue," "expect," "target," similar expressions or the negatives of these words or other comparable terminology that convey uncertainty of future events or outcomes. All forward-looking statements by their nature address matters that involve risks and uncertainties, many of which are beyond the Company's control, and are not guarantees of future results. These and other forward-looking statements are subject to risks, uncertainties and assumptions that could cause actual results to differ materially from those expressed in any forward-looking statements. Accordingly, there are or will be important factors that could cause actual results to differ materially from those indicated in such statements and, therefore, you should not place undue reliance on any such statements and caution must be exercised in relying on forward-looking statements. Important risk factors that may cause such a difference include, but are not limited to: the Company's ability to implement its business strategy; the Company's ability to enter into new and renewal license agreements with customers on favorable terms; the Company's ability to retain and hire key personnel; uncertainty as to the long-term value of the Company's common stock; legislative, regulatory and economic developments affecting the Company's business; general economic and market developments and conditions; the Company's ability to grow and expand its patent portfolios; changes in technology and development of competing technology in the industries in which the Company operates; the evolving legal, regulatory and tax regimes under which the Company operates; unforeseen liabilities and expenses; risks associated with the Company's indebtedness; the Company's ability to achieve the intended benefits of, and its ability to recognize the anticipated tax treatment of, the recent spin-off of its product business; unpredictability and severity of catastrophic events, including, but not limited to, acts of terrorism or outbreak of war or hostilities, including Russia's invasion of Ukraine, and natural disasters; and the extent to which the COVID-19 pandemic continues to have an adverse impact on the Company's business, results of operations, and financial condition will depend on future developments, including measures taken in response to the pandemic, which are highly uncertain and cannot be predicted. These risks, as well as other risks associated with the business, are more fully discussed in the Company's filings with the U.S. Securities and Exchange Commission ("SEC"), including the Company's Annual Report on Form 10-K and Quarterly Reports on Form 10-Q. While the list of factors presented here is, and the list of factors presented in the Company's filings with the SEC are, considered representative, no such list should be considered to be a complete statement of all potential risks and uncertainties. Unlisted factors may present significant additional obstacles to the realization of forward-looking statements. Consequences of material differences in results as compared with those anticipated in the forward-looking statements could include, among other things, business disruption, operational problems, financial loss, legal liability to third parties and similar risks, any of which could have a material adverse effect on the Company's consolidated financial condition, results of operations, liquidity or trading price of common stock. The Company does not assume any obligation to publicly provide revisions or updates to any forward-looking statements, whether as a result of new information, future developments or otherwise, should circumstances change, except as otherwise required by securities and other applicable laws.

At-a-Glance

Leading IP Licensing business with improved visibility, customer diversification and scale

9,750+ patent assets

Media portfolio covering fundamental aspects of the video experience across all platforms

Semiconductor portfolio covering fundamental hybrid bonding and advanced processing technology

Q4 2022 Highlights

Successfully completed first full quarter as an independent innovation and IP licensing company

Closed 10 renewals and new license agreements covering multiple verticals including consumer electronics, Pay-TV, social media and semiconductors

Exceeded midpoint of revenue guidance. Revenue for Q4 2022 was \$103.3 million and \$438.9 million for 2022

Reported adjusted EBITDA margin of 72% for Q4 2022

Deal Momentum

Samsung signed a long-term license renewal to the Company's media portfolio for its Smart TVs and related offerings

Altice signed an early renewal to extend their license, which supports their Optimum services

Two leading social media companies signed multi-year license agreements to the Company's media patent portfolio

Qorvo, a leading provider of radio-frequency (RF) solutions, signed a new semiconductor license agreement relating to our hybrid bonding technology

Signed renewals and new agreements across multiple media verticals and geographical regions with Fetch TV, SONIFI Solutions, and Naver

Horizontal Technology Approach

Measure of Success in 2023

Increase Long-Term Baseline Revenue

Continue to execute renewals and new customer agreements that will increase our annual baseline revenue over the long-term

IP Portfolio Generation

Increase patent portfolio 10% year over year with increased internal R&D and strategic acquisitions

Execute New Media and Semi Licenses

Capitalize on deal momentum from fourth quarter and the start of 2023

Adjacent Verticals

Grow our pipeline and progress deal activity in adjacent verticals

See tables for reconciliation of GAAP net income to non-GAAP net income and to adjusted earnings before interest expense, income taxes, depreciation and amortization (adjusted EBITDA)

Value Proposition

Foundation Driven by Strong Portfolios and Technology Offerings

9,750+ patents provide both depth and breadth to our licensing base

Long and impressive history of successfully monetizing our portfolios

Ongoing Innovation and Capitalization of Market Trends Drive Growth

Ongoing innovations drive growth in targeted markets

Proliferation of video is expanding rapidly

Semiconductor industry is challenged to keep up with Moore's law

Focused Capital Allocation to Maximize Shareholder Value

Focused investments in innovation across media and semiconductor

Expand IP portfolios through strategic acquisitions

Strengthen balance sheet through accelerated debt payments
